Safeguarding Statement 2024 – “Safeguarding is Everyone’s Business”

We recognise our moral and statutory responsibility to safeguard and promote the welfare of all children.

We make every effort to provide an environment in which children and adults feel safe, secure, valued and respected, and feel confident to talk if they are worried, believing they will be effectively listened to.

The purpose of this policy is to provide staff, volunteers and governors with the framework they need in order to keep children safe and secure in our school. The policy also informs parents and carers how we will safeguard their children whilst they are in our care.

Key Personnel

Designated Safeguarding Lead (DSL) is:

Hannah Jones

Contact details: hjones@sfet.org.uk or dsl.busbridge@sfet.org.uk

Telephone: 01483 417898

Deputy DSLs are:

Anna Chalk

Contact details: achalk@sfet.org.uk

Telephone 01483 417898

Mandy Scully

Contact details: mscully@sfet.org.uk

Telephone 01483 417898

The nominated safeguarding/child protection governor is:

Julia Jagelman

Contact details: jjagelman@sfet.org.uk

Telephone 01483 417898

Terminology

Safeguarding and promoting the welfare of children is defined as:

- protecting children from abuse and maltreatment.
- preventing impairment of children's mental and physical health or development;
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care.
- taking action to enable all children to have the best outcomes.
- preventing impairment of children's mental or physical health or development.

Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

Early help means providing support as soon as any needs emerge or are identified at any point in a child's life.

Staff refers to all those working for or on behalf of the school, full or part time, temporary or permanent, in either a paid or voluntary capacity.

Child(ren) includes everyone under the age of 18. On the whole, this will apply to pupils of our school; however, the policy will extend to visiting children and students from other establishments.

Parents refers to birth parents and other adults who are in a parenting role, for example stepparents, foster carers and adoptive parents.

Social Care refers to Children's Services in the area in which the child is resident, unless a child is a Child Looked After then this will be the Children's Services in their home authority.

MAP refers to the LA Multi-Agency Partnership.

C-SPA refers to the Children's Single Point of Access.

CRT refers to the Children's Reception Team.

MASH refers to the Multi Agency Safeguarding Hub.

DSL where appropriate also refers to Deputy Designated Safeguarding Lead (DDSL)

Introduction

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002 (as amended), the Education (Independent School Standards) Regulations 2014, the Non-Maintained Special Schools (England) Regulations 2015 and the Apprenticeships, Skills, Children and Learning Act 2009 (as amended). All action taken by the school will be in accordance with:

Statutory, national, and local guidance – this includes:

- [Working Together to Safeguard Children \(2018\)](#) which sets out the multi-agency working arrangements to safeguard and promote the welfare of children and young people and protect them from harm; in addition, it sets out the statutory roles and responsibilities of settings.
- [‘What to do if you are Worried a Child is Being Abused’ 2015 - Advice for Practitioners](#)
- <https://www.gov.uk/government/publications/keeping-children-safe-in-education--2> (KCSIE2024) is statutory guidance issued by the Department for Education (DfE) which all schools and colleges must have regard to when carrying out their duties to safeguard and promote the welfare of children.
- [Early Years Foundation Stage statutory framework \(2023\)](#) is statutory guidance which sets standards that school and childcare providers must meet for the learning, development, and care of children from birth to 5 years in Ofsted registered settings.
- [Local Guidance from the Local Safeguarding Partnership: Surrey Safeguarding Children Partnership \(SSCP\) including SSCP Procedures.](#)
- HSCP <https://www.hampshirescp.org.uk/>

This policy applies to all members of staff and governors in the school.

Guidance and documents referred to in this policy:

- [Surrey Safeguarding Children Partnership protocols, guidance and procedures](#)
- [Working Together to Safeguard Children 2018](#)
- Keeping Children Safe In Education 2024
- [Disqualification under the Childcare Act 2006 \(updated 2019\)](#)
- [FGM Act 2003 Mandatory Reporting Guidance 2015 \(updated January 2020\)](#)
- [‘What to do if you are worried a child is being abused’ 2015](#)
- [Teachers' Standards](#)
- [Information sharing advice for safeguarding practitioners](#)
- [The Equality Act 2010](#)
- [Early years foundation stage \(EYFS\) statutory framework](#)
- SCC Safeguarding Children Missing Education (CME) and Educated Other Than at School (EOTaS) – available on [Surrey Education Services \(Education Safeguarding Team Resources Hub\)](#)
- SCC Touch and The Use Of Physical Intervention When Working With Children And Young People – available on [Surrey Education Services \(Education Safeguarding Team Resources Hub\)](#)

This policy should be read in conjunction with the following policies:

- Recruitment and Selection
- Whistleblowing
- Use of Physical Intervention
- Staff Behaviour
- Behaviour
- Online Safety
- Attendance
- Health, Safety & Welfare

Equalities Statement

With regards to safeguarding we will consider our duties under the [Equality Act 2010](#) and our general and specific duties under the [Public Sector Equality Duty](#). General duties include: eliminate discrimination, harassment, victimisation, and other conduct that is prohibited by the Equality Act 2010.

Advance equality of opportunity between people who share a protected characteristic and people who do not share it.

Foster good relations across all protected characteristics between people who share a protected characteristic and people who do not share it.

Details of our specific duties are published in our Equality Policy found on our website.

Staff are aware of the additional barriers to recognising abuse and neglect in children with Special Educational Needs and Disabilities (SEND). This will be in line with our Special Educational Needs and Disability Policy (found on our website).

Our school also adheres to the principals of and promotes anti-oppressive practice in line of the [United Nations Convention of the Rights of the Child](#) and the [Human Rights Act 1998](#).

Policy Aims

The aims of these procedures are:

- To provide staff with the framework to promote and safeguard the wellbeing of children and in doing so ensure they meet their statutory responsibilities.
- To ensure consistent good practice across the school and ensure that safeguarding follows a whole school approach.
- Clarifying safeguarding expectations for members of the school's community, staff, governors, children, and their families.
- Contributing to the establishment of a safe, resilient, and robust safeguarding culture in the school built on shared values; that children are treated with respect and dignity, taught to treat each other and staff with respect, feel safe, have a voice, and are listened to.
- Supporting contextual safeguarding practice recognising that the school's site can be a location where harm can occur.
- Setting expectations for developing knowledge and skills within the school's community (staff, children, parents/carers) to the signs and indicators of safeguarding issues and how to respond to them.
- Early identification of need for vulnerable learners and provision of proportionate interventions to promote their welfare and safety.
- Working in partnership with children, parents/carers, and other agencies in the Local authorities Safeguarding Children Partnership.

Policy Principles and Values

- The welfare of the child is paramount.
- Maintain an attitude of "It could happen here".
- Maintain a "zero-tolerance" approach to sexual violence and sexual harassment.
- Children have a right to feel safe and secure, they cannot learn effectively unless they do so.
- All children have a right to be protected from harm and abuse.

- All staff have a role in the prevention of harm and abuse and an equal responsibility to act immediately on any suspicion or disclosure that may indicate a child is at risk of harm, either in the school or in the community, taking into account contextual safeguarding, in accordance with statutory guidance.
- We acknowledge that working in partnership with other agencies protects children and reduces risk and so we will engage in partnership working to protect and safeguard children.
- Whilst the school will work openly with parents as far as possible, it reserves the right to contact Social Care or the Police, without notifying parents if this is believed to be in the child's best interests.
- We will always act in the best interests of the child and ensure that our decisions around safeguarding take a child-centred and coordinated approach.

Supporting Children

Our school will support all children by:

- Providing a safe place and stability in the lives of children who have been abused or who are at risk of harm. The school recognises that a child who is abused or witnesses abuse and/or violence may feel helpless and humiliated, may blame themselves, and find it difficult to develop and maintain a sense of self-worth. Research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn.
- Promoting a caring, safe and positive environment within the school.
- Teaching young children the language of feelings, helping them to appropriately develop their emotional literacy.
- Encouraging self-esteem and self-assertiveness, through the curriculum and through positive relationships within the school community.
- Ensuring children are taught to understand and manage risk through Personal, Social, Health and Economic (PSHE) education and Relationship, Sex Education and Health Education (RSHE) through all aspects of school life, including staying safe online.
- Responding with clear boundaries about what is safe and acceptable for children and seek to understand the triggers for their behaviour.
- Responding sympathetically to any requests for time out to deal with distress and/or anxiety.
- Ensuring children are made aware of and have access to details of helplines, counselling, or other avenues of external support.
- Liaising and working in partnership with support services and agencies involved in early help and the safeguarding of children.
- Notifying children's social care without delay if there is an immediate risk of significant harm.
- Ensuring children and learners feel secure and that they experience positive support from all staff knowing that they demonstrate their emotional security through the secure attachments they form with those who look after them and through their physical and emotional well-being.
- Providing continued support to children about whom they have concerns and those who leave the school by ensuring that information is shared confidentially with the child's new school. The school will ensure records are forwarded as a matter of priority and within statutory timescale.
- The designated safeguarding lead will consider if it would be appropriate to share any additional information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school or college. For example, information that would allow the new school or college to continue supporting children who have had a social worker and been victims of abuse and have that support in place for when the child arrives.
- The school recognises it plays a significant part in the prevention of harm to our children by providing children with good lines of communication with trusted adults, supportive friends and an ethos of protection.

The school will:

- Establish and maintain an ethos where children feel safe and secure, are encouraged to talk and are always listened to.
- Include regular consultations with children e.g. through questionnaires, participation in anti-bullying activity, asking children to report whether they feel safe in the school.
- Ensure that all children know they can access a trained adult in the school whom they can approach if they are worried or in difficulty.
- Ensure all staff are supported to make reasonable judgements about when it may be appropriate to use physical contact with a learner or child to guide them with their learning or protect them from injury.
- Include safeguarding across the curriculum, including PSHE, PSED (EYFS) opportunities which equip children with the skills they need to stay safe from harm and to know to whom they should turn for help. In particular this will include anti-bullying work, online-safety, accessing emergency services and road safety. Also focused work in Year R to ensure they are ready for the transition to KS1 learning and Year 6 to prepare for transition to secondary school and more personal safety/independent travel. And in Key Stage 4 for transition into college. It is also recognised that effective education will be tailored to the specific needs and vulnerabilities of individual children, including children who are victims of abuse, and children with special education needs or disabilities.
- Provide preventative education by creating a culture of zero tolerance for sexism, misogyny/ Misandry, homophobia, biphobia and sexual violence and sexual harassment.
- Ensure all staff are aware of school guidance for their use of mobile technology and social media and have discussed safeguarding issues around the use of mobile technologies and their associated risks.
- Ensure all staff are aware of the appropriate use of mobile technology for taking and storing images of children.
- Ensure children can be provided with a healthy snack and a balanced and nutritious lunch. We will also ensure we obtain information about any special dietary requirements and food allergies, along with any special health requirements ahead of the children starting in the school.
- Fresh drinking water will be available and accessible to children.

Parenting

All parents will struggle with the behaviour of their child(ren) at some point. This does not make them poor parents or generate safeguarding concerns. Rather it provides them with opportunities to learn and develop new skills and approaches to deal with their child(ren). Some children have medical conditions and/or needs e.g. Tourette's Syndrome, some conditions associated with autism or ADHD that have a direct impact on behaviour and can cause challenges for parents in dealing with behaviours. This does not highlight poor parenting either.

Parenting becomes a safeguarding concern when the repeated lack of supervision, boundaries, basic care or medical treatment places the child(ren) in situations of risk or harm.

In situations where parents struggle with tasks such as setting boundaries and providing appropriate supervision, timely interventions can make drastic changes to the wellbeing and life experiences of the child(ren) without the requirement for a social work assessment or plan being in place.

We will support parents in understanding the parenting role and providing them with strategies that may assist:

- providing details of community-based parenting courses
- linking to web-based parenting resources
- referring to the school parenting worker/home school link worker (where available)
- discussing the issue with the parent and supporting them in making their own plans of how to respond differently (using evidence-based parenting programmes)
- signposting to support services
- Considering appropriate early help services

Professional expectations, roles, and responsibilities

Role of the school:

The school will ensure that:

- Details of the DSL and DDSL are available on the school website, our newsletter, notice board in reception and staffroom.
- The school operates safer recruitment procedures in line with KCSIE 2024 which includes statutory checks on the suitability of staff to work with children.
- All staff receive information about the school safeguarding arrangements, the school's safeguarding statement, staff behaviour policy (code of conduct), Safeguarding and Child Protection policy, the role and names of the Designated Safeguarding Lead (DSL) and their deputy Designated Safeguarding Lead (DDSL), and [Keeping children safe in education \(2024\)](#), part 1 or the condensed version of it in annex A (dependent on their role). This applies to the Local Governing body in relation to part 2 of the same guidance.
- All staff receive safeguarding and child protection training (including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring) at induction in line with advice from [SSCP](#)/ <https://www.hampshirescp.org.uk/> Training is regularly updated as required, and at least annually to continue to provide them with relevant skills and knowledge to safeguard children effectively.
- All members of staff are trained in and receive regular updates in online safety and reporting concerns.
- All members of staff maintain a zero-tolerance approach to sexual violence and sexual harassment.
- All staff and governors have regular safeguarding and child protection awareness training, updated by the DSL as appropriate, to maintain their understanding of the signs and indicators of abuse.
- The Safeguarding and Child Protection Policy is made available via the school website and a paper copy is available upon request for parents/carers.
- All parents/carers are made aware of the responsibilities of staff members with regard to safeguarding and child protection procedures.
- We provide a coordinated offer of Early Help when additional needs of children are identified and contribute to early help arrangements and inter-agency working and plans.
- Our lettings policy (Appendix T in SFET Financial Policy and Procedures Handbook) will seek to ensure the suitability of adults working with children on school sites at any time and ensure that any groups who use the school premises have Safeguarding and Child Protection policies and procedures in place.
- Community users organising activities for children are aware of the school's Safeguarding and Child Protection Policy, guidelines and procedures.
- Within Primary, ensure at least one person who has a current paediatric first aid certificate is always on the premises and available where EYFS children are present, and will accompany EYFS children on outings.
- Staffing arrangements will meet the needs of all children and ensure their safety. We will ensure that children are adequately supervised, including whilst eating, and decide how to deploy staff to ensure children's needs are met.

All Staff:

Have a key role to play in identifying concerns early and in providing help for children. To achieve this they will:

- Maintain an attitude of "It could happen here" with regards to safeguarding.
- Understand that safeguarding is "everyone's responsibility".
- Maintain a "zero-tolerance" approach to sexual violence and sexual harassment.
- Read and understand Part 1 of statutory guidance KCSIE (2024). Those working directly with children will also read Annex B.
- In addition to this all staff will be aware of the systems in place which support safeguarding including reading this Safeguarding and Child Protection Policy; the Behaviour Policy; the Staff Behaviour Policy (code of

conduct); safeguarding response to children who go missing from education; and the role of the DSL.

- Know who and how to contact the DSL and DDSL, the Chair of Governors and the Governor responsible for safeguarding.
- Be aware of indicators of abuse and neglect understanding that children can be at risk of harm inside and outside of the school, inside and outside of home and online. Exercising professional curiosity and knowing what to look for is vital for the early identification of abuse and neglect so that staff can identify cases of children who may need help or protection.
- Be able to identify vulnerable learners and take action to keep them safe. Information or concerns about learners will be shared with the DSL where it includes those:
 - who may need a social worker and may be experiencing abuse or neglect
 - requiring mental health support
 - who may benefit from early help
 - where there is a radicalisation concern
 - where a crime may have been committed
- Provide a safe environment in which children can learn.
- Establish and maintain an environment where children feel secure, are encouraged to talk and are listened to.
- Ensure children know that there are adults in the school who they can approach if they are worried or have concerns.
- All staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.
- Ensure only appropriately trained professionals attempt to make a diagnosis of a mental health problem. Staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.
- Take immediate action if they have a mental health concern about a child that is also a safeguarding concern, following our Safeguarding and Child Protection Policy and procedures.
- Plan opportunities within the curriculum for children to develop the skills they need to assess and manage risk appropriately and keep themselves safe.
- Attend training in order to be aware of and alert to the signs of abuse and neglect.
- Know how to respond to a child who discloses harm or abuse following training of 'Working Together to Safeguard Children' (2018), and 'What to do if you are worried a child is being abused' (2015).
- Record their concerns if they are worried that a child is being abused and report these to the DSL immediately using the school's Child Protection Online Management System (CPOMS). If the DSL is not contactable immediately a DDSL should be informed.
- Be prepared to refer directly to the relevant Local Authority Children's Services and the Police if appropriate if there is a risk of significant harm and the DSL or their DDSL is not available.
- Follow the allegations procedures, as set out in this policy and KCSIE 2024, if the disclosure is an allegation against a member of staff, supply staff, volunteer, or contractor.
- Report low-level concerns (as defined in KCSIE 2024) about any member of staff/supply staff/volunteer or contractor to the DSL (or deputy) and where a low-level concern is raised about the DSL it will be shared with the Chair of Governors.
- Follow procedures set out by the SSCP/ <https://www.hampshirescp.org.uk/> and take account of guidance issued by the Department for Education to safeguard children.
- Provide support for children subject to Early Help, child in need or child protection and be involved where appropriate, in the implementation of individual plans to further safeguard vulnerable learners and understand their academic progress and attainment and maintain a culture of high aspirations for this cohort.
- A member of staff who is approached by a child should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they need to pass information to other professionals to help keep the child and/or other children safe. The degree of confidentiality should always be governed by the need to protect the child.
- Notify the DSL or their DDSL of any child on a child protection plan or child in need plan who has unexplained absence.
- Be aware that children may not feel ready or know how to tell someone they are being abused, exploited, or neglected, and/or they may not recognise these experiences as harmful. This could be due to their

vulnerability, disability and/or sexual orientation or language barriers.

- Understand Early Help and be prepared to identify children who may benefit from Early Help, liaising with the DSL in the first instance. Options may include managing support for the child internally via the school's pastoral support process or an Early Help Assessment. In some circumstances it may be appropriate for a member of school staff to act as the lead professional in Early Help cases.
- Liaise with other agencies that support children and provide Early Help.
- Be mindful that the Teacher's Standards states that teachers should safeguard children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.
- Assist the Governing Body and Headteacher in fulfilling their safeguarding responsibilities set out in legislation and statutory guidance.

The Headteacher:

In addition to the role and responsibilities of all staff the Headteacher will ensure that:

- The school fully contributes to inter-agency working in line with Working Together to Safeguard Children (2018) guidance.
- The Safeguarding and Child Protection Policy and procedures are implemented and followed by all staff.
- That the school has appropriate policies in place that make it clear that sexual harassment, online sexual abuse, and sexual violence (including sexualised language) is unacceptable, with appropriate sanctions and support in place.
- That the school's staff have appropriate knowledge of KCSIE (2024) part 5.
- That all children are supported to report concerns about harmful sexual behaviour freely. That concerns are taken seriously and dealt with swiftly and appropriately, and children are confident that this is case. And that comprehensive records of all allegations are kept.
- All staff are aware of the role of the DSL, including the identity of the DSL and any DDSLs.
- Sufficient time, training, support, funding, resources, including cover arrangements where necessary, is allocated to the DSL to carry out their role effectively, including the provision of advice and support to school staff on safeguarding and child protection matters, monitoring and responding to reports made using CPOMS, to take part in strategy discussions/meetings and other inter-agency meetings and/or support other staff to do so; and to contribute to the assessment of children.
- Opportunities are provided for a coordinated offer of Early Help when additional needs of children are identified.
- That DDSLs are trained to the same standard as the DSL and the role is explicit in their job description.
- Adequate and appropriate DSL cover arrangements are in place for any out of hours/out of term activities.
- Where there is a safeguarding concern that the child's wishes and feelings are taken into account when determining what action to take and what services to provide.
- Child-centred systems and processes are in place for children to express their views and give feedback.
- All staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the whistle-blowing procedures.
- Children are provided with opportunities throughout the curriculum to learn about safeguarding, including keeping themselves safe online.
- That allegations or concerns against staff and other adults are dealt with in accordance with guidance from the Department for Education (DfE) and the relevant local authority.
- That support and advice will be available to individuals against whom allegations have been made.
- That statutory requirements are met to make a referral to the Disclosure and Barring Service and additionally in the case of teaching staff the Teacher Regulation Agency where they think an individual has engaged in conduct that harmed (or is likely to harm) a child; or if the person otherwise poses a risk of harm to a child.
- Record low-level concerns in cases which concern a member of staff/supply staff/contractor or a volunteer. The record should include details of the concern, the context in which the concern arose, and action taken. The name of the individual sharing their concerns should also be noted, if the individual wishes to remain anonymous then that will be respected as far as reasonably possible.

The Designated Safeguarding Lead:

Duties are further outlined in KCSIE (2024, Annex C).

Details of the DSL and DDSLs are available on our website, reception area and staffroom noticeboard. In addition to the role and responsibilities of all staff the DSL will:

- Hold the lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems in place) in the school, this responsibility is not able to be delegated.
- Liaise with the Surrey County Council (or other local councils as appropriate) and work in partnership with other agencies in line with Working Together to Safeguard Children (2018).
- Where necessary contact the local authorities Child Protection Consultation Line for advice.
- Manage and submit a Request for Support Form for a child if there are concerns about suspected harm or abuse.
- Report concerns that a child may be at risk of radicalisation or involvement in terrorism, use the [Prevent referral form](#) to refer cases by e-mail to preventreferrals@surrey.pnn.police.uk . If the matter is urgent then Police must be contacted by dialing 999. In cases where further advice from the Police is sought dial 101. The DfE has also set up a dedicated telephone helpline for staff and governors to raise concerns around Prevent (020 7340 7264).
- Liaise with Hampshire County Council if child lives outside of Surrey and vice versa.
- Refer cases where a crime may have been committed to the Police as required. NB: NPCC- [When to call the police](#) should help DSLs understand when they should consider calling the Police and what to expect when they do.
- Liaise with the “case manager” and Local Authority Designated Officer (LADO) for child protection concerns in cases which concern a member of staff/supply staff/contractor/parent or a volunteer; and refer cases where a person is dismissed or left service due to risk/harm to a child to the Disclosure and Barring Service and Teaching Regulation Agency, as required.
- Follow relevant DfE guidance and KCSIE 2024 on ‘Child on Child abuse’ when a concern is raised that there is an allegation of a child abusing another child within the school.
- When there has been a report of sexual violence, make an immediate risk and needs assessment. Additionally, where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis and will be put in place as required.
- Be available during term time (during school hours) for staff in school to discuss any safeguarding concerns. Appropriate and adequate cover arrangements will be arranged by the DSL and the school leadership for any out of hours/term activities.
- Act as a source of support and expertise in carrying out safeguarding duties for the whole school community.
- Ensure that the names of the DSL and DDSL, are clearly advertised, with a statement explaining the school’s role in referring and monitoring cases of suspected abuse.
- Ensure there is adequate supervision for the DSL and DDSL team. Safeguarding supervision is a regular, planned, accountable two-way process which should offer emotional support and develop the knowledge, skills and values of the DSL or DDSL team. The DSL has this through the nominated safeguarding governor and DSL supervision meetings (once a term). The DDSL team has this through regular safeguarding supervision meetings and DSL network meetings. Minutes for supervision meetings are kept using the agenda in Appendix 1. See our Supervision Policy for further details.
- Encourage and promote a culture of listening to children and taking account of their wishes and feelings, amongst all staff.
- Access training and support to ensure they have the knowledge and skills required to carry out the role. DSL training should be updated at least every two years and their knowledge and skills refreshed at regular intervals but at least annually.
- Have a secure working knowledge of SSCP procedures and understand the assessment process for providing Early Help and statutory intervention.

- Have a clear understanding of access and referral to the local Early Help offer and will support and advise members of staff where Early Help assessment is appropriate.
- Have a working knowledge of how local authorities conduct an initial child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so.
- Understand the lasting impact that adversity and trauma can have, including on the children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes.
- Understand and support the school delivery with regards to the requirements of the Prevent duty and provide advice and guidance to staff on protecting children from radicalisation.
- Liaise with school staff (especially pastoral support, school health colleagues and the SENDCO) on matters of safety and safeguarding and liaison with relevant agencies.
- Be alert to the specific needs of children in need, those with Special Educational Needs and Disability (SEND) and young carers.
- Understand the risks associated with online activity and be confident that they have the up to date knowledge and capability to keep children safe whilst they are online at school; in particular understand the additional risks that children with SEND face online and the associated and appropriate support they require.
- Work with the relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, and identifying the impact that these issues might be having on children's attendance, engagement and achievement at the school.
- Maintain and monitor the keeping of detailed, accurate records (using CPOMS and appropriate, secure paper-based records, where necessary), that include all concerns about a child even if there is no need to make an immediate referral and record the rationale for decisions made and action taken.
- Ensure that an indication of the existence of the additional safeguarding/child protection file is marked on the child's main file record.
- Ensure that when a child transfers school (including in-year), their safeguarding/child protection file is passed to the new school as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained.
- Ensure that where a child transfers school and is on a child protection plan or is a child looked after, their information is passed to the new school immediately and that the child's social worker is informed. In addition, consideration should be given to a multi-agency schools transition meeting if the case is complex or on-going.
- If the transit method requires that a copy of the safeguarding/child protection file is retained until such a time that the new school acknowledges receipt of the original file, the copy should be securely destroyed on confirmation of receipt.
- Ensure that all appropriate staff members have a working knowledge and understanding of their role in case conferences, core groups and other multi-agency planning meetings, to ensure that they attend and are able to effectively contribute when required to do so; where a report is required, this should be shared with the parents prior to the meeting.
- Report to the Headteacher any significant issues. This should include being aware of the requirement for children to have an Appropriate Adult. Further information can be found in the [Statutory guidance - PACE Code C 2019](#).
- Ensure that the case holding Social Worker is informed of any child currently with a child protection plan who is absent without explanation.
- Organise safeguarding and child protection induction, regularly updated training and a minimum of annual updates (including online safety) for all school staff, keep a record of attendance and address any absences.
- Ensure each member of staff has access to, and understands, the school's Safeguarding and Child Protection Policy procedures, especially new and part-time staff.
- Ensure that in collaboration with the school leadership and governors, the Safeguarding and Child Protection Policy is reviewed annually, and the procedures and implementation are updated and reviewed regularly.
- Ensure that the Child Protection Policy is available publicly and that parents are aware that referrals about suspected harm and abuse will be made and the role of the school in this.
- Establish and maintain links with Local authorities to make sure staff are aware of training opportunities and

the latest policies on local safeguarding arrangements.

- Promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances.
- Help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children who have or have had a social worker are experiencing with teachers and leadership staff.
- Contribute to and provide, with the Headteacher and Chair of Governors, the Statutory Audit for Safeguarding Arrangements.
- Supervise the Deputy Designated Safeguarding Leads.

The Deputy Designated Safeguarding Lead(s):

In addition to the role and responsibilities of all staff the Deputy DSL will:

- Be trained to the same standard as the DSL and the role is explicit in their job description.
- Provide support and capacity to the DSL in carrying out delegated activities of the DSL; however, the lead responsibility of the DSL cannot be delegated.
- In the absence of the DSL, carries out the activities necessary to ensure the ongoing safety and protection of children. In the event of the long-term absence of the DSL the DDSL will assume all of the functions of the DSL.
- Meet regularly with the DSL and other DDSLs.

All members of The Governing Body understand and fulfil their responsibilities to ensure that:

- There is a whole school approach to safeguarding, involving everyone in the school and ensuring that safeguarding, and child protection are at the forefront and underpin all relevant aspects of process and policy development.
- A nominated governor for safeguarding is identified. This individual will meet with the DSL once a term for a supervision meeting. Details on this arrangement are found in the Supervision Policy and the meeting agenda is found in Appendix 1 of this policy.
- All members receive appropriate safeguarding and child protection (including online) training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place in the school are effective and support the delivery of a robust whole school approach to safeguarding. Training should be regularly updated.
- The child's wishes and feelings are considered when determining what action to take and what services to provide.
- The school has effective safeguarding policies and procedures including a Safeguarding and Child Protection Policy, a Staff Behaviour Policy or Code of Conduct, a Behaviour Policy and a response to children who go missing from education.
- Policies are consistent with statutory requirements, are reviewed annually (as a minimum) and updated if needed, so that it is kept up to date with safeguarding issues as they emerge and evolve, including lessons learnt and that the Safeguarding and Child Protection Policy is available on the school website.
- Local authorities are informed in line with local requirements about the discharge of duties via the Statutory Audit for Safeguarding Arrangements and Termly Safeguarding Data Collection.
- Ensure recruitment, selection and induction follow safer recruitment practice including all appropriate checks. This includes online searches (procedure outlined in safer recruitment policy).
- The school operates a safer recruitment procedure that includes statutory checks on staff suitability to work with children and disqualification by association regulations and by ensuring that there is at least one person on every recruitment panel who has completed safer recruitment training, if there is not a panel conducting interviews then the individual will have completed the safer recruitment training.
- At least one member of the governing body has completed safer recruitment training.

- Staff have been trained appropriately and this is updated in line with guidance and all staff have read KCSIE (2024) part 1 or Annex B (depending on their role in the school) Additionally, there are mechanisms in place to assist staff in understanding and discharging their roles and responsibilities as set out in the guidance.
- Ensure that, as part of the requirement for staff to undergo regular updated safeguarding training, including online safety and the requirement to ensure children are taught about safeguarding, is integrated, aligned, and considered as part of the whole school safeguarding approach and wider staff training and curriculum planning.
- Consider the above training requirements, Governing bodies should have regard to the Teacher's Standards which set out the expectation that all teachers manage behaviour effectively to ensure a good and safe educational environment and requires teachers to have a clear understanding of the needs of all children.
- All staff including temporary staff/supply staff, volunteers and contractors are provided with the school's Safeguarding and Child Protection Policy and if applicable the Staff Behaviour Policy.
- Take a proportionate risk-based approach to the level of information that is provided to temporary staff, volunteers and contractors.
- The school has procedures for dealing with allegations of abuse against staff (including the Headteacher), volunteers and against other children and that a referral is made to the DBS and/or the Teaching Regulation Agency (as applicable) if a person in regulated activity has been dismissed or removed due to safeguarding concerns or would have had they not resigned.
- Policies and processes are in place to deal with concerns (including allegations) which do not meet the harm threshold or "low level concerns" as defined in KCSIE 2024.
- A member of the senior leadership team has been appointed by the local governing body as the DSL who will take lead responsibility for safeguarding and child protection and that the role is explicit in the role holder's job description.
- That on appointment, the DSL and DDSL undertake interagency training undertake DSL 'New to Role' with 'Refresher' training every two years as well as attending DSL network events, to refresh knowledge and skills.
- Children are taught about safeguarding (including online safety) as part of a broad and balanced curriculum covering relevant issues through personal, social, health and economic education (PSHE) and Relationships and Sex and Health Education (RSHE).
- Alongside the school they will ensure application filters and monitoring systems are in place to safeguard children online.
- Ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified.
- The school will comply with DfE Policy Guidance for Safeguarding Children Missing Education and Education Other Than at School.
- Clear systems and processes are in place for identifying possible mental health concerns, including routes to escalate and clear referral and accountability systems.
- Ensure that safeguarding and child protection files are maintained as set out in KCSIE 2024 Annex C.
- Enhanced DBS checks (without barred list checks unless the governor is also a volunteer at the school) are in place for all Governors.
- Ensure section 128 checks are undertaken as defined in KCSIE 2024.
- Ensure where Local Governing bodies hire or rent out school or college facilities/premises to organisations or individuals (for example to community groups, sports associations, and service providers to run community or extra-curricular activities) they should ensure that appropriate arrangements are in place to keep children safe.
- Any weaknesses in safeguarding are remedied immediately.

Confidentiality, Sharing and Withholding Information

All matters relating to child protection will be treated as confidential and only shared as per the [‘Information Sharing Advice for Practitioners’ \(DfE 2018\) guidance](#). The school will refer to the guidance in the [Data protection: toolkit for schools](#) to support school with data protection activity, including compliance with General Data Protection Regulation (GDPR).

Information will be shared with staff within the school who ‘need to know’.

Relevant staff have due regard to GDPR principles which allow them to share (and withhold) information.

All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the [Data Protection Act 1998](#) and GDPR are not a barrier to sharing information where a failure to do so would place a child at risk of harm. There is a lawful basis for child protection concerns to be shared with agencies who have a statutory duty for child protection.

All staff must be aware that they cannot promise a child to keep secrets which might compromise the child’s safety or wellbeing.

All staff will always endeavour to gain parent/carers consent to refer a child to Social Care unless to do so could put the child at greater risk of harm or impede a criminal investigation.

Reporting and responding to safeguarding concerns

The following procedures apply to all staff working in the school and will be covered by training to enable staff to understand their role and responsibility.

The aim of our procedures is to provide a robust framework which enables staff to take appropriate action when they are concerned that a child is being harmed or abused or is at risk of harm or abuse.

The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

All staff are aware that children and those with disabilities, special needs or with language delay may be more likely to communicate concerns with behaviours rather than words. Additionally, staff will question the cause of knocks and bumps in children who have limited mobility.

If a member of staff suspects abuse, spots signs or indicators of abuse, or they have a disclosure of abuse made to them they must:

1. Make an initial record of the information related to the concern.
2. Report it to the DSL immediately.
3. The DSL will consider if there is a requirement for immediate medical intervention, however urgent medical attention should not be delayed if the DSL is not immediately available.
4. Make an accurate record on CPOMS (which may be used in any subsequent court proceedings) as soon as possible and within 24 hours of the occurrence, of all that has happened, including details of:
 - Date
 - Time
 - Place

- Who was present and or any linked children
 - Context
 - Details of disclosure/concern (using the child's words)
 - Demeanour/non-verbal behaviours of the child
 - Child's voice
 - Any injuries (using a body map to record these)
 - Rationale for decision making
 - Actions taken
5. In the absence of the DSL or their DDSL, staff must be prepared to refer directly to C-SPA/ <https://www.hampshirescp.org.uk/> (and the Police if appropriate) if there is the potential for immediate significant harm.

Following a report of concerns the DSL must:

- Using the Levels of Need document decide whether or not there are sufficient grounds for suspecting harm, in which case a request for support must be made to the C-SPA/ <https://www.hampshirescp.org.uk/> and the Police if it is appropriate.
- The school should try to discuss any concerns about a child's welfare with the parent/carer and where possible obtain their agreement before making a referral to the C-SPA/ <https://www.hampshirescp.org.uk/> . However, this should only be done when:
 - it will not place the child at increased risk
 - sexual/organised abuse is suspected
 - the fabrication of an illness is suspected
 - the discussion could impede a Police investigation or Social Work enquiry
- Where there are doubts or reservations about involving the child's family, the DSL should clarify with the C-SPA/ <https://www.hampshirescp.org.uk/> or the Police whether the parents/carers should be told about the referral and, if so, when and by whom. This is important in cases where the Police may need to conduct a criminal investigation. The child's views should also be considered.
- If it is suspected that a child is suffering, or is likely to suffer, harm or abuse the DSL must contact the C-SPA/ <https://www.hampshirescp.org.uk/> . If the DSL feels unsure about whether a referral is necessary, they can phone the C-SPA/ <https://www.hampshirescp.org.uk/> consultation line to discuss concerns.
- When a child needs urgent medical attention and there is suspicion of abuse the DSL should take the child to the accident and emergency unit at the nearest hospital, having first notified the C-SPA/ <https://www.hampshirescp.org.uk/> . The DSL should seek advice about what action the C-SPA/ <https://www.hampshirescp.org.uk/> will take and about informing the parents/carers, remembering that parents/carers should normally be informed that a child requires urgent hospital attention.
- In the instance of a report of historical abuse, the DSL will refer any information to the Police service.
- If there is not a risk of significant harm, the DSL will either actively monitor the situation or consider offering early help.
- The exception to this process will be in those cases of known FGM where there is a [mandatory reporting duty](#) for the teacher to report directly to the Police where they either:
 - Are informed by a girl under 18 that an act of FGM has been carried out on her; or
 - Observe physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for the purposes connected with labour or birth.

The DSL should also be made aware.

Dealing with safeguarding concerns

All staff

A member of staff who is approached by a child should listen positively and try to reassure them. They cannot promise complete confidentiality and should explain that they need to pass information to other professionals to help keep the child and/or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English. It is important to communicate with them in a way that is appropriate to their age, understanding and preference.

All staff should know who the DSL is and who to approach if the DSL is unavailable.

All staff have the right to make a referral to the C-SPA/ <https://www.hampshirescp.org.uk/> or Police directly and should do this if, for whatever reason, there are difficulties following the agreed protocol, for example, they are the only adult on the school premises at the time and have concerns about sending a child home.

Guiding principles, the seven R's

Receive

- Listen to what is being said, without displaying shock or disbelief
- Accept what is said and take it seriously
- Make a note of what has been said as soon as practicable

Reassure

- Reassure the child, but only so far as is honest and reliable
- Don't make promises you may not be able to keep e.g. 'I'll stay with you' or 'everything will be alright now' or 'I'll keep this confidential'
- Do reassure, for example, you could say: 'I believe you', 'I am glad you came to me', 'I am sorry this has happened', 'We are going to do something together to get help'

Respond

- Respond to the child only as far as is necessary for you to establish whether or not you need to refer this matter, but do not interrogate for full details
- Do not ask 'leading' questions i.e. 'did he touch your private parts?' or 'did she hurt you?' Such questions may invalidate your evidence (and the child's) in any later prosecution in court
- Do not ask the child why something has happened
- Do not criticize the alleged perpetrator; the child may care about him/her, and reconciliation may be possible
- Do not ask the child to repeat it all for another member of staff. Explain what you have to do next and whom you have to talk to. Reassure the child that it will be a senior member of staff

Report

- Share concerns with the DSL immediately
- If you are not able to contact your DSL or the Deputy DSL, and the child is at risk of immediate harm, contact the C-SPA/ <https://www.hampshirescp.org.uk/> or Police, as appropriate directly
- If you are dissatisfied with the level of response, you receive following your concerns, you should press for re-consideration

Record

- If possible, make some very brief notes at the time, and record them on CPOMS as soon as possible

- Upload a scanned copy of your original notes to the incident report where appropriate, along with any other supporting paper-based documents
- Record the date, time, place, person/s present and noticeable nonverbal behaviour, and the words used by the child. If the child uses sexual 'pet' words, record the actual words used, rather than translating them into 'proper' words
- If appropriate, complete a body map to indicate the position of any noticeable bruising
- Record facts and observable things, rather than your 'interpretations' or 'assumptions'

Remember

- Support the child: listen, reassure, and be available
- Complete confidentiality is essential. Share your knowledge only with appropriate professional colleagues
- Get some support for yourself if you need it

Review (led by DSL)

- Has the action taken provided good outcomes for the child?
- Did the procedure work?
- Were any deficiencies or weaknesses identified in the procedure? Have these been remedied?
- Is further training required?

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. The member of staff should be informed by the DSL what has happened following a report being made. If they do not receive this information, they should seek it out.

If they have concerns that the disclosure has not been acted upon appropriately, they must inform the Headteacher or Safeguarding Governor of the school and/or may contact the C-SPA/ <https://www.hampshirescp.org.uk/>.

Receiving a disclosure can be upsetting for the member of staff and schools should have a procedure for supporting them after the disclosure. This might include reassurance that they have followed procedure correctly and that their swift actions will enable the allegations to be handled appropriately.

In some cases, additional support might be needed, and staff should be encouraged to recognise that disclosures can have an impact on their own emotions.

Safeguarding concerns and allegations against adults who work with children – referral to the Local Authority Designated Officer (LADO)

Procedure

Local authority procedures will be followed where it is alleged that anyone working in the school that provides education for children under 18 years of age, including supply staff, volunteers and contractors or another adult who works with children has:

- behaved in a way that has harmed a child, or may have harmed a child and/or
- possibly committed a criminal offence against or related to a child and/or
- behaved towards a child or children in a way that indicates they may pose a risk of harm to children and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

The last bullet point above includes behaviour that may have happened outside of the school, that might make an individual unsuitable to work with children, this is known as transferable risk.

The school may also receive an allegation relating to an incident that happened when an individual or organisation was using their school premises for the purposes of running activities for children (for example community groups, sports associations, or service providers that run extra-curricular activities).

In dealing with allegations or concerns against an adult, staff must without delay:

Report any concerns about the conduct of any member of staff, volunteer or other adult to the Headteacher immediately. The Headteacher will ask the staff member to complete a staff concern form (see appendix 2).

If an allegation is made against the Headteacher, the concerns need to be raised with the Chair of Governor as soon as possible. If the Chair of Governor's is not available, then the LADO should be contacted directly.

There may be situations when the Headteacher or Chair of Governors will want to involve the Police immediately if the person is deemed to be an immediate risk to children or there is evidence of a possible criminal offence.

Once an allegation has been received by the Headteacher or Chair of Governors they will contact the LADO immediately and before taking any action or investigation.

Following consultation with the LADO inform the parents of the allegation unless there is a good reason not to.

In liaison with the LADO, the school will determine how to proceed and if necessary, the LADO will refer the matter to Social Care and/or the Police.

If the matter is investigated internally, the LADO will advise the school to seek guidance in following procedures set out in part 4 of KCSIE (2024).

We have procedures in place to deal with the outcomes of allegations, such as:

- Having alternatives to suspending a member of staff, such as moving the child to a different class (if appropriate)
- Not sharing information about the member of staff involved with other staff or parents not directly involved
- Referring unsubstantiated, unfounded, false or malicious allegations to the DSL to decide next steps
- Considering disciplinary action in line with our behaviour policy for reports found to be deliberately invented or malicious

Low-level concerns

The term low-level concern does not mean that it is insignificant. A low-level concern is any concern – no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' - that an adult working in or on behalf of the school may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work and
- does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO

The purpose of reporting low-level concerns is to create and embed a culture of openness, trust and transparency in which the school's values and expected behaviour set out in the staff code of conduct are lived, monitored and reinforced constantly by all staff. The school creates an environment where staff are encouraged and feel confident to self-refer where they have found themselves in a situation. Reports should be made to the DSL in a timely manner. If the DSL has any doubt as to whether the information which has been shared about the individual as a low-level concern in fact meets the harm threshold, they will consult with the Local Authority. The DSL will ask the staff member to complete a staff concern form (see appendix 2).

Abuse

What is child abuse?

The following definitions are taken from Working Together to Safeguard Children (2018). In addition to these definitions, it should be understood that children can also be abused by being sexually exploited, honour-based violence, forced marriage or female genital mutilation.

Forms of abuse and neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Indicators of abuse

Neglect

Neglect is a lack of care, but poverty and lack of information or adequate services can be contributory factors.

Far more children are registered to the category of neglect on Child in Need and Child Protection plans than to the other categories. As with abuse, the number of children experiencing neglect is likely to be much higher than the numbers on the plans.

Neglect is a difficult form of abuse to recognise and is often seen as less serious than other categories. It is, however, very damaging: children who are neglected often develop more slowly than others and may find it hard to make friends and fit in with their peer group.

Neglect is often noticed at a stage when it may not pose a risk to the child. The duty to safeguard and promote the welfare of children (*What to do if You're Worried a Child is Being Abused* DfE 2015) would suggest that an appropriate intervention or conversation at this early stage can address the issue and prevent a child continuing to suffer until it reaches a point when they are at risk of harm or in significant need.

Neglect is often linked to other forms of abuse, so any concerns school staff have should be discussed with the DSL.

Emotional abuse

It is sometimes possible to spot emotionally abusive behaviour from parents and carers to their children, by the way that the adults are speaking to, or behaving towards children. An appropriate challenge or intervention could affect positive change and prevent more intensive work being carried out later

- Emotional abuse is difficult to define, identify/recognise and/or prove.
- Emotional abuse is chronic and cumulative and has a long-term impact.
- All kinds of abuse and neglect have emotional effects although emotional abuse can occur by itself.
- Children can be harmed by witnessing someone harming another person – as in domestic abuse.
- Most harm is produced in low warmth, high criticism homes, not from single incidents.

Physical abuse

Most children collect cuts and bruises quite routinely as part of the rough and tumble of daily life. But accidental injuries normally occur on the bony prominences – e.g. knees, shins.

Injuries on the *soft* areas of the body are more likely to be inflicted intentionally and should therefore make us more alert to other concerning factors that may be present.

A body map can assist in the clear recording and reporting of physical abuse. The body map should only be used to record observed injuries and no child should be asked to remove clothing by a member of staff of the school.

In the context of the school, it is normal to ask about a noticeable injury. Concern should be increased when:

- the explanation given does not match the injury
- the explanation uses words or phrases that do not match the vocabulary of the child (adult words)
- no explanation is forthcoming
- the child (or the parent/carer) is secretive or evasive
- the injury is accompanied by allegations of abuse or assault

Sexual Abuse

Sexual abuse is often perpetrated by people who are known and trusted by the child – e.g. relatives, family friends, neighbours, babysitters, and people working with the child in school, faith settings, clubs or activities. Children can also be subject to child sexual exploitation.

Sexual exploitation is seen as a separate category of sexual abuse.

Characteristics of child sexual abuse:

- it is often planned and systematic – people do not sexually abuse children by accident, though sexual abuse can be opportunistic
- grooming the child – people who abuse children take care to choose a vulnerable child and often spend time making them dependent (this may occur online)
- grooming the child's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives.

Most people who sexually abuse children are men, but women and other children can commit sexual abuse too.

Further information on indicators of abuse can be accessed via [NSPCC](#).

Sexual violence and sexual harassment between children in schools

Child on Child Abuse

Sexual violence and sexual harassment can occur between children of any age and sex. It can occur through a single child or a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will find the experience stressful and distressing. This will, in all likelihood, adversely affect their education attainment as well as their emotional well-being. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and offline (both physically and verbally) and are never acceptable. It is important that all victims are taken seriously and offered appropriate support.

Reports of sexual violence and sexual harassment are extremely complex to manage. It is essential that victims are protected, offered appropriate support and every effort is made to ensure their education is not disrupted. It is also important that other children, adults, and school and college staff are supported and protected as appropriate.

Child-on-child abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying) abuse in intimate personal relationships between children (sometimes known as 'teenage relationship abuse')
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)
- sexual violence, such as rape, assault by penetration and sexual assault; (this may include an online element which facilitates, threatens and/or encourages sexual violence)
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- consensual and non-consensual sharing of nude and semi-nude images and/or videos (previously known as sexting or youth produced sexual imagery) [UKCIS guidance: Sharing nudes and semi-nudes advice for education settings](#)

- upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress, or alarm, and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element).

Harmful Sexual Behaviour

Children's sexual behaviour exists on a wide continuum, ranging from normal and developmentally expected to inappropriate, problematic, abusive and violent. Problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. HSB can occur online and/or face-to-face and can also occur simultaneously between the two. HSB will be considered in a child protection context.

The schools response to HSB:

The [Brook Traffic Light Tool](#) uses a traffic light system to categorise the sexual behaviours of young people and it can be used to help professionals:

- Make decisions about safeguarding children and young people
- Assess and respond appropriately to sexual behaviour in children and young people
- Understand healthy sexual development and distinguish it from harmful behaviour

By categorising sexual behaviours, the school can work with other agencies to the same standardised criteria when making decisions and can protect children and young people with a multi-agency approach.

The school recognises that it is vital that professionals agree on how behaviours should be categorised regardless of culture, faith, beliefs, and their own experiences or values.

Teenage Relationship Abuse

Relationship abuse can take place at any age and describes unacceptable behaviour between two people who are in a relationship.

Research has shown that teenagers do not always understand what may constitute abusive and controlling behaviours, e.g. checking someone's 'phone, telling them what to wear, who they can/can't see or speak to or coercing them to engage in activities they are not comfortable with. The government campaign "disrespect nobody" provides other examples of abusive behaviour within a relationship.

This lack of understanding can lead to these abusive behaviours feeling 'normal' and therefore left unchallenged, as they are not recognised as being abusive.

In response to these research findings, the school will provide education (through the MyWorld programme) to help prevent teenagers from becoming victims and perpetrators of abusive relationships, by encouraging them to rethink their views of violence, abuse and controlling behaviours, and understand what consent means within their relationships. This will form part of the school's curriculum content in respect of Relationship Education.

If the school has concerns about a child in respect of relationship abuse, it will report those concerns in line with procedures to the appropriate authorities as a safeguarding concern, a crime or both.

Policy

We believe that all children have a right to attend school and learn in a safe environment. Children should be free from harm by adults and other children in school.

We recognise that children are capable of abusing other children and their peers and this will be dealt with under our Safeguarding and Child Protection Policy and in line with KCSiE (2024).

We are clear that sexual violence and sexual harassment is not acceptable.

We will minimize the risk of child-on-child abuse by: -

- making clear that there is a zero-tolerance approach to sexual violence and sexual harassment, that it is never acceptable, and it will not be tolerated. It will never be passed off as “banter”, “just having a laugh”, “a part of growing up” or “boys being boys”. We believe that failure to do so can lead to a culture of unacceptable behaviour, an unsafe environment and in worst case scenarios a culture that normalizes abuse, leading to children accepting it as normal and not coming forward to report it.
- recognising, acknowledging, and understanding the scale of harassment and abuse and that even if there are no reports it does not mean it is not happening, it may be the case that it is just not being reported.
- challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. As we believe that dismissing or tolerating such behaviours risks normalising them.

Prevention

- Taking a whole school approach to safeguarding and child protection
- Providing training to staff
- Providing a clear set of values and standards, underpinned by the school’s behaviour policy and pastoral support; and by a planned programme of evidence-based content delivered through the curriculum.
- Engaging with specialist support and interventions.

Responding to reports of sexual violence and sexual harassment

Children making any report of sexual violence or sexual harassment including “upskirting” (The Voyeurism Offences Act 2019) will be taken seriously, kept safe and be well supported.

If the report includes an online element staff will be mindful of the [Searching, screening and confiscation at school](#) guidance.

The key consideration is for staff not to view or forward illegal images of a child. The guidance provides more details on what to do when viewing an image is unavoidable. In some cases, it may be more appropriate to confiscate any devices to preserve any evidence and hand them to the police for inspection.

Risk Assessment

Following a report, the DSL will make an immediate risk and needs assessment on a case-by-case basis.

The risk assessment will consider;

- The victim, especially their protection and support.
- The alleged perpetrator, their support needs and any discipline action.
- All other children at the school.
- The victim and the alleged perpetrator sharing classes and space at school.
- The risk assessment will be recorded and kept under review.

Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the school’s approach to supporting and protecting children.

Action:

It is essential that all victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward, and that they will be supported and kept safe. Abuse that occurs online or outside of the school should not be downplayed and should be treated equally seriously. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report. It is important to explain that the law is in place to protect children rather than criminalise them, and this should be explained in such a way that avoids alarming or distressing them.

The DSL will consider:

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- Ages of the children involved.
- Developmental stages of the children.
- Any power imbalance between the children.
- Any previous incidents.
- That sexual violence and sexual harassment can take place within intimate personal relationships between children.
- Importance of understanding intra familiar (child sexual abuse which occurs within the family) harms and any necessary support for siblings following incidents
- Ongoing risks to victim, other children, adult students, or staff.
- Other related issues or wider context.

Confidentiality:

The victim may ask the school not to tell anyone about the sexual violence or sexual harassment. If the victim does not give consent to share information, staff may still lawfully share it, if there is another legal basis under the UK GDPR that applies. The DSL should consider:

- parents or carers should normally be informed (unless this would put the victim at greater risk)
- the basic safeguarding principle is: if a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to local authority children's social care, and
- rape, assault by penetration and sexual assaults are crimes. Where a report of rape, assault by penetration or sexual assault is made, this should be referred to the police. Whilst the age of criminal responsibility is ten, if the alleged perpetrator is under ten, the starting principle of referring to the police remains. The police will take a welfare, rather than a criminal justice approach, in these cases.

The DSL will have to balance the victim's wishes against their duty to protect the victim and other children.

Options:

- Manage internally
- Early Help assessment
- Request for support to the C-SPA/ <https://www.hampshirescp.org.uk/>
- Report to the Police

All concerns, discussions, decisions and reasons for decision will be recorded.

Ongoing Response:

The DSL will manage each case individually and will ensure the risk assessment is reviewed regularly with relevant partner agencies, for example the Police and social care.

Where an allegation of sexual violence or sexual harassment is progressing through the criminal justice system, schools should be aware of anonymity, witness support, and the criminal process in general so they can offer support and act appropriately.

Where there is a criminal investigation into a rape, assault by penetration or sexual assault, the alleged perpetrator should be removed from any classes they share with the victim.

The DSL will consider how best to keep the victim and perpetrator a reasonable distance apart on school premises and on transport where appropriate.

Where a criminal investigation into a rape or assault by penetration leads to a conviction or caution, the school will take suitable action. In all but the most exceptional of circumstances, the rape or assault is likely to constitute a serious breach of discipline and may lead to the view that allowing the perpetrator to remain in the same school would seriously harm the education or welfare of the victim (and potentially themselves and other children).

Where a criminal investigation into sexual assault leads to a conviction or caution, the school will, if it has not already, consider any suitable sanctions in light of their behaviour policy, which may include consideration of permanent exclusion. Where the perpetrator is going to remain at the school, the Headteacher should continue keeping the victim and perpetrator in separate classes and continue to consider the most appropriate way to manage potential contact on school premises and transport. The nature of the conviction or caution and wishes of the victim will be especially important in determining how to proceed in such cases.

The victim, alleged perpetrator and any other children & adults affected will receive appropriate support and safeguards on a case-by-case basis.

The school will take any disciplinary action against the alleged perpetrator in accordance with the school behaviour policy.

The school recognises that taking disciplinary action and providing appropriate support are not mutually exclusive actions and will occur at the same time if necessary.

The school will consider the potential impact of social media in facilitating the spreading of rumours and exposing victims' identities.

The school recognises that children who have experienced sexual violence display a wide range of responses to their experiences including clear signs of trauma, physical and emotional responses, or no overt signs at all.

Physical Abuse

While a clear focus of child-on-child abuse is around sexual abuse and harassment, physical assaults and initiation violence and rituals from children to children can also be abusive.

These are equally not tolerated and if it is believed that a crime has been committed, will be reported to the Police.

The principles from the anti-bullying policy will be applied in these cases, with recognition that any Police investigation will need to take priority.

Anti-Bullying/Cyberbullying

Our school policy on anti-bullying is set out in a separate document and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures.

We keep a record of known bullying incidents which is shared with and analysed by the governing body. All staff are aware that children with SEND and/or children who identify as Lesbian, Gay, Bisexual, Transgender, Queer or Questioning (LGBTQ+) are more susceptible to being bullied/victims of child abuse.

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced, and provide a safe space for them to speak out or share their concerns with members of staff.

When there is 'reasonable cause to suspect that a child is suffering, or is likely to suffer, significant harm' a bullying incident should be addressed as a child protection concern. If the anti-bullying procedures are seen to be ineffective, the Headteacher/Principal and the DSL will also consider child protection procedures.

PSHE education regularly provides opportunities for children to understand bullying is wrong, its impact and how to deal with it.

LGBT inclusion is part of the statutory Relationships Education, Relationship and Sex Education and Health Education curriculum and there is a range of support available to help schools counter homophobic, biphobic and transphobic bullying and abuse.

Online Safety/Cybercrime

The school has an online safety policy which empowers us to protect and educate pupils, and staff in their use of technology and establishes mechanisms to identify, intervene in, and escalate any concerns where appropriate. The school also has a clear policy on the use of mobile and smart technology (including wearable technology).

The breadth of issues classified within online safety is considerable and ever evolving, but can be categorised into four areas of risk, content, contact, conduct and commerce.

Children are taught about online safety throughout the curriculum and all staff receive online safety training which is regularly updated. The school's online safety co-ordinator is the headteacher.

The school will follow the guidance around [harmful online challenges and online hoaxes](#) when supporting children and sharing information with parents/carers.

Children with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime. If there are concerns about a child in this area, the DSL will consider a referral into the [Cyber Choices](#) programme.

This programme aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests.

Children increasingly use electronic equipment on a daily basis to access the internet, share and view content and images via social media sites such as Facebook, Twitter, Instagram, Snapchat and TikTok and for online gaming.

Some adults and other children use these technologies to harm children. The harm might range from sending hurtful or abusive texts or emails, to grooming and enticing children to engage in extremist or sexual behaviour involving webcam photography or face-to-face meetings.

Children may also be distressed or harmed by accessing inappropriate material such as pornographic websites or those which promote extremist behaviour, criminal activity, suicide or eating disorders.

Racist Incidents

Our policy on racist incidents is set out separately and acknowledges that repeated racist incidents or a single serious incident may lead to consideration under child protection procedures. We keep a record of racist incidents.

Radicalisation, Extremism and Terrorism

[The Prevent Duty for England and Wales \(2015\)](#) under section 26 of the Counter Terrorism and Security Act 2015 places a duty on education and other children's services to have due regard to the need to prevent people from being drawn into terrorism.

Extremism is defined as 'the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.'

Radicalisation refers to 'the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.'

Terrorism is 'an action that endangers or causes serious violence to a person/people;; causes serious damage to property; or seriously interferes with an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious, or ideological cause.'

Some children are at risk of being radicalised; adopting beliefs and engaging in activities which are harmful, criminal, or dangerous. This can happen both online and offline.

The school is clear that exploitation of vulnerable children and radicalisation should be viewed as a safeguarding concern and follows the Department for Education guidance for schools and childcare providers on preventing children and young people from being drawn into terrorism. Details of procedures and protocols with regards to Radicalisation can be found in the school's PREVENT policy.

It is possible to protect people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may need help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the DSL making a [Prevent Referral](#) .

The DSL should report concerns that a child may be at risk of radicalisation or involvement in terrorism, use the [Prevent referral form](#) to refer cases by e-mail to preventreferrals@surrey.pnn.police.uk .

If the matter is urgent then Police must be contacted by dialling 999. In cases where further advice from the Police is sought dial 101

There is a dedicated telephone helpline 0800 0113764 for staff and Governors to raise concerns around Prevent.

School staff receive training to help identify early signs of radicalisation and extremism.

Opportunities are provided in the curriculum to enable children to discuss issues of religion, ethnicity and culture and the school follows the [Promoting fundamental British values through SMSC](#).

The school's Governors, the Headteacher and the DSL will assess the level of risk within the school and put actions in place to reduce that risk. Risk assessment may include, due diligence checks for external speakers and private hire of facilities, anti-bullying policy and other issues specific to the school's profile, community, and philosophy.

Although not a cause for concern on their own, possible indicators when taken into consideration alongside other factors or context may be a sign of being radicalised.

Further information and a list of such indicators can be found at [Managing Risk of Radicalisation in your Education Setting](#)

Indicators of vulnerability to radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism leading to terrorism.

Extremism is defined by the Crown Prosecution Service as:

- The demonstration of unacceptable behaviour by using any means or medium to express views which:
- Encourage, justify or glorify terrorist violence in furtherance of particular beliefs
- Seek to provoke others to terrorist acts
- Encourage other serious criminal activity or seek to provoke others to serious criminal acts
- Foster hatred which might lead to inter-community violence in the UK.

There is no such thing as a "typical extremist": those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Children may become susceptible to radicalisation through a range of social, personal and environmental factors - it is known that violent extremists exploit vulnerabilities in individuals to drive a wedge between them and their families and communities. It is vital that school staff are able to recognise those vulnerabilities.

Indicators of vulnerability include:

- **Identity Crisis** – the child is distanced from their cultural / religious heritage and experiences discomfort about their place in society.
- **Personal Crisis** – the child may be experiencing family tensions; a sense of isolation; and low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging;
- **Personal Circumstances** – migration; local community tensions; and events affecting the child's country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy;
- **Unmet Aspirations** – the child may have perceptions of injustice or a feeling of failure,
- **Experiences of Criminality** – which may include involvement with criminal groups, imprisonment, and poor resettlement / reintegration;
- **Special Educational Needs and Disability (SEND)** – children may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism. The Department of Education guidance [The Prevent Duty](#) should be referred to.

Domestic Abuse

Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional. It occurs regardless of race, ethnicity, gender, class, sexuality, age, religion, mental or physical ability. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn.

[Domestic Abuse Act](#) received Royal Assent on 29 April 2021. The Act introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims, if they see, hear or experience the effects of abuse. The statutory definition of domestic abuse, based on the previous cross-government definition, ensures that different types of relationships are captured, including ex-partners and family members. The definition captures a range of different abusive behaviours, including physical, emotional, and economic abuse and coercive and controlling behaviour. Both the person who is carrying out the behaviour and the person to whom the behaviour is directed towards must be aged 16 or over and they must be “personally connected” (as defined in section 2 of the 2021 Act).

We use the term domestic abuse to reflect that several abusive and coercive controlling behaviours are involved beyond violence. Slapping, punching, kicking, bruising, rape, ridicule, constant criticism, threats, manipulation, sleep deprivation, social isolation, and other coercive controlling behaviours all count as abuse.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Experiencing domestic abuse can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

The school is enrolled onto the Operation Encompass scheme, a joint project between Surrey Police, Surrey Domestic Abuse Service and Surrey settings. The system ensures that when the police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the DSL in the school before the child or children arrive at the school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable immediate support to be put in place, according to the child's needs.

Parental mental health

The term ‘mental ill health’ is used to cover a wide range of conditions, from eating disorders, mild depression and anxiety to psychotic illnesses such as schizophrenia or bipolar disorder. Parental mental illness does not necessarily have an adverse impact on a child's developmental needs, but it is essential to always assess its implications for each child in the family. It is essential that the diagnosis of a parent's/carer's mental health is not seen as defining the level of risk. Similarly, the absence of a diagnosis does not equate to there being little or no risk.

For children, the impact of poor parental mental health can include:

- The parent's/carer's needs or illnesses taking precedence over the child's needs
- The child's physical and emotional needs being neglected
- The child acting as a young carer for a parent or a sibling
- The child having restricted social and recreational activities
- The child finding it difficult to concentrate, potentially having an impact on educational achievement
- The child missing school regularly as (s)he is being kept home as a companion for a parent/carer
- The child adopting paranoid or suspicious behaviour as they believe their parent's delusions
- Witnessing self-harming behaviour and suicide attempts (including attempts that involve the child)

- Obsessional compulsive behaviours involving the child.

If staff become aware of any of the above indicators, or others that suggest a child is suffering due to parental mental health, the information will be shared with the DSL to consider a referral to children's social care.

Parental Substance misuse

Substance misuse applies to the misuse of alcohol as well as 'problem drug use', defined by the Advisory Council on the Misuse of Drugs as drug use which has: 'serious negative consequences of a physical, psychological, social and interpersonal, financial or legal nature for users and those around them.

Parental substance misuse of drugs or alcohol becomes relevant to child protection when substance misuse and personal circumstances indicate that their parenting capacity is likely to be seriously impaired or that undue caring responsibilities are likely to be falling on a child in the family.

For children, the impact of parental substance misuse can include:

- Inadequate food, heat and clothing for children (family finances used to fund adult's dependency)
- Lack of engagement or interest from parents in their development, education or wellbeing
- Behavioural difficulties- inappropriate display of sexual and/or aggressive behaviour
- Bullying (including due to poor physical appearance)
- Isolation – finding it hard to socialise, make friends or invite them home
- Tiredness or lack of concentration
- Child talking of or bringing into school drugs or related paraphernalia
- Injuries /accidents (due to inadequate adult supervision)
- Taking on a caring role
- Continued poor academic performance including difficulties completing homework on time
- Poor attendance or late arrival.

These behaviours themselves do not indicate that a child's parent is misusing substances but should be considered as indicators that this may be the case.

If staff believe that a child is living with parental substance misuse, this will be reported to the designated safeguarding lead for referral to children's social care to be considered.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL is aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge for example through others sharing videos or images of them on social media. CSE can affect any child who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator.

The victim may have been sexually exploited even if the sexual activity appears consensual.

Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology. All staff are aware of the link between online safety and vulnerability to CSE.

Any concerns that a child is being or is at risk of being sexually exploited should be passed immediately to the DSL.

The school is aware there is a clear link between regular non-attendance and CSE. Staff will consider a child to be at potential CSE risk in the case of regular non-attendance at and make reasonable enquiries with the child and parents/carers to assess this risk.

All staff are aware that safeguarding incidents and/or behaviours can be associated with factors outside the school and/or can occur between children outside of these environments. All staff, but especially the DSL will consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.

In all cases if the DSL identifies any level of concern the DSL should contact the C-SPA and if a child is in immediate danger the Police should be called on 999.

The school is aware that often a child is not able to recognise the coercive nature of the abuse and does not see themselves as a victim. Consequently, the child may resent what they perceive as interference by staff. However, staff must act on their concerns as they would for any other type of abuse. Children also rarely self-report CSE so staff must be particularly vigilant to potential indicators of risk.

The school includes the risks of sexual exploitation in the PSHE and RSHE curriculum.

Child Criminal Exploitation (CCE) & Gangs

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through county lines, working in cannabis factories, shoplifting, or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs using dedicated mobile phone lines or other form of "deal line". Children are exploited to move, store and sell drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims.

Children can become trapped by this type of exploitation, as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt.

Any concerns that a child is being or is at risk of being criminally exploited will be passed without delay to the DSL. The DSL will then contact the C-SPA/ <https://www.hampshirescp.org.uk/> and if there is concern about a child's immediate

safety, the Police will be contacted on 999.

The school is aware there is a clear link between regular non-attendance at school and exploitation. Staff will consider a child to be at potential risk in the case of regular non-attendance at school and make reasonable enquiries with the child and parents/carers to assess this risk.

A child who is affected by gang activity or serious youth violence may have suffered, or may be likely to suffer, significant harm through physical, sexual and emotional abuse or neglect. Children can be vulnerable to recruitment into gangs and involvement in gang violence. This vulnerability may be exacerbated by risk factors in an individual's background, including violence in the family, involvement of siblings in gangs, poor educational attainment, or poverty or mental health problems.

Serious Violence

There are a number of indicators, which may signal children are at risk from, or are involved with, serious violent crime. These may include:

- increased absence from the school
- a change in friendships or relationships with older individuals or groups
- a significant decline in performance
- signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries
- Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation

Staff are aware that violence can often peak in the house just before and after the children attend the school which includes travelling to and from the school.

Female Genital Mutilation (FGM)

FGM is illegal in England and Wales under the FGM Act (2003). It is a form of child abuse and violence against women. [A mandatory reporting duty](#), requires teachers to report directly and immediately to the Police 101 where they either:

- Are informed by a girl under 18 that an act of FGM has been carried out on her; or
- Observe physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for the purposes connected with labour or birth.

The duty applies to all persons in school who are employed or engaged to carry out 'teaching work' in the school, whether or not they have qualified teacher status. The duty applies to the individual who becomes aware of the case to make a report. It should not be transferred to the DSL; however, the DSL should be informed.

School staff are trained to be aware of risk indicators of FGM.

Concerns about FGM outside of the mandatory reporting duty should be reported using the school's Safeguarding and Child protection procedures. Staff should be particularly alert to suspicions or concerns expressed by female children about going on a long holiday during the summer holiday.

There should also be consideration of potential risk to other girls in the family and the wider community. Where there is a risk to life or likelihood of serious immediate harm the teacher should report the case immediately to the Police by calling 999.

There are no circumstances in which a member of staff should examine a girl.

Forced Marriage

A forced marriage is a marriage in which one or both people do not (or in cases of people with learning disabilities cannot) consent to the marriage but are coerced into it. Coercion may include physical, psychological, financial, sexual, and emotional pressure. It may also involve physical or sexual violence and abuse.

Forced marriage is recognised in the UK as a form of violence against women and men, domestic/child abuse and a serious abuse of human rights. Since June 2014 forcing someone to marry has become a criminal offence in England and Wales under the Anti-Social Behaviour, Crime and Policing Act 2014. In addition, since February 2023, it is also a crime to cause a child to marry before their eighteenth birthday, even if violence, threats or another form of coercion are not used. This applies to non-binding, unofficial 'marriages' as well as legal marriages.

A forced marriage is not the same as an arranged marriage which is common in many cultures. The families of both spouses take a leading role in arranging the marriage but the choice of whether or not to accept the arrangement remains with the prospective spouses.

School staff should never attempt to intervene directly as a school or through a third party. Contact should be made with the C-SPA/ <https://www.hampshirescp.org.uk/> and/or the Forced Marriage Unit 020 7008 0151.

So-called 'Honour'-based abuse (HBA)

HBA can be described as a collection of practices, which are used to control behaviour within families or other social groups to protect perceived cultural and religious beliefs and/or honour. Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their honour code.

HBA might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage; become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage.
- want to get out of a forced marriage
- wear clothes or take part in activities that might not be considered traditional within a particular culture

It is considered a violation of human rights and may be a form of domestic and/or sexual abuse.

One Chance Rule

All staff are aware of the 'One Chance' Rule' in relation to forced marriage, FGM and HBA. Staff recognise they may only have one chance' to speak to a child who is a potential victim and have just one chance to save a life.

The school is aware that if the victim is not offered support following disclosure that the 'One Chance' opportunity may be lost. Therefore, all staff are aware of their responsibilities and obligations when they become aware of potential forced marriage, FGM and HBA cases.

Children and the Court System

We recognise that children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. We know that this can be a stressful experience and therefore the school will aim to support children through this process.

Along with pastoral support, the school will use age-appropriate materials published by HM Courts and Tribunals

Services (2017) that explain to children what it means to be a witness, how to give evidence and the help they can access. [Improving support for children going to court as well as witnesses](#)

We recognise that making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. This school will support children going through this process.

Alongside pastoral support this school will use online materials published by The Ministry of Justice (2018) which offers children information & advice on the dispute resolution service.

These materials will also be offered to parents and carers if appropriate.

Children with family members in prison

Children who have a family member in prison are at greater risk of poor outcomes including poverty, stigma, isolation and poor mental health.

This school aims to:

- Understand and respect the child's wishes. We will respect the child's wishes about sharing information. If other children become aware, the school will be vigilant to potential bullying or harassment.
- Keep as much contact as possible with the parent/caregiver. We will maintain good links with the remaining caregiver to foresee and manage any developing problems. Following discussions, we will develop appropriate systems for keeping the imprisoned caregiver updates about their child's education.
- Be sensitive in lessons. This school will consider the needs of any child with an imprisoned parent/caregiver during lesson planning.
- Provide extra support. We recognise that having a parent in prison can attach a real stigma to a child, particularly if the crime is known and serious. We will provide support and mentoring to help a child work through their feelings on the issue.

Alongside pastoral care the school will use the resources provided by the National Information Centre on Children of Offender to support and mentor children in these circumstances.

Private Fostering Arrangements

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16 years old or 18 years old if the child is disabled.

Looked After Children by the local authority or those who are placed in residential schools, children's homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures and children may be privately fostered at any age.

The school recognises that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases. Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify Children's Social Care immediately. However, where a member of staff becomes aware that a child may be in a private fostering arrangement, they will raise this with the DSL and the DSL will notify the C-SPA/ <https://www.hampshirescp.org.uk/> immediately.

Looked After Children and Previously Looked After Children

The most common reason for children becoming looked after is because of abuse and neglect.

Appropriate staff have information about a child's looked after legal status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child and contact arrangements with birth parents or those with parental responsibility.

A previously looked after child potentially remains vulnerable and all staff should have the skills, knowledge and understanding to keep previously looked after children safe. When dealing with looked after children and previously looked after children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.

The designated teacher and governor for looked after children will have the appropriate level of training to equip them with the knowledge and skills to undertake their role.

The designated teacher will work with the Virtual School for both looked after children and previously looked after children.

The school has a Looked After Children policy that should be read in conjunction with the Safeguarding and Child Protection Policy.

Returning home from care

When children are taken into care, consideration may be given in the future to those children being returned to the care of their parents, or one of their parents. Other children are placed in care on a voluntary basis by the parents and they can remove their voluntary consent.

While this is a positive experience for many children who have returned to their families, for some there are different challenges and stresses in this process.

As a school, if we are aware of one of our children who is looked after is returning to their home, we will consider what support we can offer and ensure as a minimum that the child has a person, that they trust, who they can talk to or share their concerns with.

Children with special educational needs and disabilities or health issues

Children with SEND or certain medical or physical health conditions can face additional safeguarding challenges both online and offline. These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs, and
- communication barriers and difficulties in managing or reporting these challenges.
- cognitive understanding – being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in school or the consequences of doing so

Any reports of abuse will require close liaison with the DSL and the SENDCO. The school will consider extra pastoral support and attention for these children, along with ensuring any appropriate support for communication is in place.

Children Absent from Education

All children are entitled to an efficient, full-time education which is suitable to their age, ability, aptitude, and any SEND they may have.

The school recognises that children missing education, can be a vital warning sign of a range of safeguarding possibilities. They are also at significant risk of underachieving, being victims of abuse and harm, exploitation, radicalisation, and not being in education, employment or training (NEET) later in life.

Where possible the school will hold more than one emergency contact number for each child.

The school will ensure that there is a record of joiners and leavers as defined in [The Education \(Pupil Registration\) \(England\) 2006 \(amended 2016\)](#).

When removing a child's name, the school will notify the Local Authority of: (a) the full name of the child, (b) the full name and address of any parent with whom the child normally resides, (c) at least one telephone number of the parent, (d) the child's future address and destination school, if applicable, and (e) the ground in regulation 8 under which the child's name is to be removed from the school register.

The school will make reasonable enquiries to establish the whereabouts of a child jointly with the Local Authority, before deleting the child's name from the school register if the deletion is under regulation 8(1), sub-paragraphs (f) (iii) and (h) (iii) of [The Education \(Pupil Registration\) \(England\) 2006 \(amended 2016\)](#).

The school will:

- Enter children on the admissions register on the first day on which the school has agreed, or has been notified, that the child will attend the school.
- Notify the Local Authority within five days of adding a child's name to the admission register. The notification must include all the details contained in the admission register for the new child.
- Monitor each child's attendance through their daily register and follow the Local Authority procedure in cases of unauthorised absence.
- Remove a child's name from the admissions register on the date that the child leaves the school.
- The school will notify the Local Authority when they are about to remove a child's name from the school register under any of the fifteen grounds listed in the regulations, no later than the date that the child's name is due to be removed.

Where parents notify the school, in writing, of their intention to Electively Home Educate (EHE) the school will forward a copy of the letter to the Local Authority Education Inclusion Team.

Where parents orally indicate that they intend to withdraw their child to EHE and no letter has been received, the school will not remove the child from roll and will notify the Education Inclusion Team at the earliest opportunity.

DSL's and staff should consider:

Missing lessons: Are there patterns in the lessons that are being missed? Is this more than avoidance of a subject or a teacher? Does the child remain on the school site or are they absent from the site?

- Is the child being exploited during this time?
- Are they late because of a caring responsibility?
- Have they been directly or indirectly affected by substance misuse?
- Are other pupils routinely missing the same lessons and does this raise other risks or concerns such as SVSH between pupils, exploitation, gang behaviour or substance misuse?
- Is the lesson being missed one that would cause bruising or injuries to become visible?

Single missing days: Is there a pattern in the day missed? Is it before or after the weekend suggesting the child is away from the area? Are there specific lessons or members of staff on these days? Is the parent informing the school of the absence on the day? Are missing days reported back to parents to confirm their awareness?

- Is the child being sexually exploited during this day?
- Is the child avoiding abusive behaviour from peers or staff on this day?
- Do the parents appear to be aware and are they condoning the behaviour?
- Are the pupil's peers making comments or suggestions as to where the pupil is?
- Can the parent be contacted and made aware?

Continuous missing days: Has the school been able to make contact with the parent(s)? Is medical evidence being provided? Are siblings attending school (either our or local schools)?

- Did we have any concerns about radicalisation, FGM, forced marriage, honour- based violence, sexual exploitation?
- Have we had any concerns about physical or sexual abuse?
- Does the parent have any known medical needs? Is the child safe?

The school will view absence as both a safeguarding issue and an educational outcomes issue. The school may take steps that could result in legal action for attendance, or a referral to children's social care, or both.

Perplexing presentations (PP) / Fabricated or induced illness (FII)

The Royal College of Paediatrics and Child Health have added the term "Perplexing presentations" to the guidance around FII.

Perplexing Presentations (PP) has been introduced to describe those situations where there are indicators of possible FII which have not caused or brought on any actual significant harm.

It is important to highlight any potential discrepancies between reports, presentations of the child and independent observations of the child. What is key to note are implausible descriptions and/or unexplained findings and/or parental behaviour.

There are three main ways that a parent/carer could fabricate or induce illness in a child. These are not mutually exclusive and include:

- fabrication of signs and symptoms. This may include fabrication of past medical history
- fabrication of signs and symptoms and falsification of hospital charts and records, and specimens of bodily fluids. This may also include falsification of letters and documents
- induction of illness by a variety of means.

If we are concerned that a child may be suffering from fabricated or induced illness, we will inform children's social care.

Children Missing from Home or Care

It is known that children who go missing are at risk of suffering significant harm, and there are specific risks around children running away and the risk of sexual exploitation.

The police definition of 'missing' is: "Anyone whose whereabouts cannot be established will be considered as missing until located, and their well-being or otherwise confirmed."

Local authorities have safeguarding duties in relation to children missing from home and should work with the police to risk assess and analyse data for patterns that indicate particular concerns and risks.

The police will prioritise all incidents of missing children as medium or high risk. Where a child is recorded as being absent, the details will be recorded by the police, who will also agree review times and any on-going actions with person reporting.

A missing child incident would be prioritised as 'high risk' where:

- the risk posed is immediate and there are substantial grounds for believing that the child is in danger through their own vulnerability; or
- the child may have been the victim of a serious crime; or
- the risk posed is immediate and there are substantial grounds for believing that the public is in danger.

The high-risk category requires the immediate deployment of police resources.

Authorities need to be alert to the risk of sexual exploitation or involvement in drugs, gangs or criminal activity, trafficking and to be aware of local "hot spots", as well as concerns about any individuals with whom children might runaway.

Child protection procedures must be initiated in collaboration with children's social care services whenever there are concerns that a child who is missing may be suffering, or likely to suffer, significant harm.

Within any case of children who are missing both push and pull factors will need to be considered.

Push factors include:

- Conflict with parents/carers
- Feeling powerless
- Being bullied/abused
- Being unhappy/not being listened to
- The Trigger Trio (domestic abuse, parental mental ill health and parental substance misuse)

Pull factors include:

- Wanting to be with family/friends
- Drugs, money and any exchangeable item
- Peer pressure
- For those who have been trafficked into the United Kingdom as unaccompanied asylum-seeking children, there will be pressure to make contact with their trafficker.

We will inform all parents of children who are absent (unless the parent has informed us). If the parent is also unaware of the location of their child, and the definition of missing is met, we will either support the parent to contact the police to inform them or do so ourselves with urgency.

Trafficked Children and modern slavery

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs.

Human trafficking is defined by the UNHCR in respect of children as a process that is a combination of:

- Movement (including within the UK)
- Control, through harm / threat of harm or fraud
- For the purpose of exploitation

Any child transported for exploitative reasons is considered to be a trafficking victim.

There is significant evidence that children (both of UK and other citizenship) are being trafficked internally within the UK and this is regarded as a more common form of trafficking in the UK.

There are a number of indicators which suggest that a child may have been trafficked into the UK, and may still be controlled by the traffickers or receiving adults. These are as follows:

- Shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted infection or has an unwanted pregnancy
- Has a history of going missing and unexplained moves
- Is required to earn a minimum amount of money every day
- Works in various locations
- Has limited freedom of movement
- Appears to be missing for periods
- Is known to beg for money
- Is being cared for by adult/s who are not their parents and the quality of the relationship between the child and their adult carers is not good
- Is one among a number of unrelated children found at one address
- Has not been registered with or attended a GP practice
- Is excessively afraid of being deported.

For those children who are internally trafficked within the UK indicators include:

- Physical symptoms (bruising indicating either physical or sexual assault)
- Prevalence of a sexually transmitted infection or unwanted pregnancy
- Reports from reliable sources suggesting the likelihood of involvement in sexual exploitation/the child has been seen in places known to be used for sexual exploitation
- Evidence of drug, alcohol or substance misuse
- Being in the community in clothing unusual for a child i.e. inappropriate for age, or borrowing clothing from older people
- Relationship with a significantly older partner
- Accounts of social activities, expensive clothes, mobile phones or other possessions with no plausible explanation of the source of necessary funding
- Persistently missing, staying out overnight or returning late with no plausible explanation
- Returning after having been missing, looking well cared for despite having not been at home
- Having keys to premises other than those known about
- Low self- image, low self-esteem, self-harming behaviour including cutting, overdosing, eating disorder, promiscuity
- Truancy / disengagement with education
- Entering or leaving vehicles driven by unknown adults
- Going missing and being found in areas where the child or young person has no known links; and/or
- Possible inappropriate use of the internet and forming on-line relationships, particularly with adults.

These behaviours themselves do not indicate that a child is being trafficked but should be considered as indicators that this may be the case.

When considering modern slavery, there is a perception that this is taking place overseas. The government estimates that tens of thousands of slaves are in the UK today.

Young people being forced to work in restaurants, nail bars, car washes and harvesting fruit, vegetables or other foods may have all been slaves 'hiding in plain sight' within the U.K and rescued from slavery. Other forms of slavery such as

sex slaves or household slaves are more hidden but have also been rescued within the UK.

If staff believe that a child is being trafficked or is a slave, this will be reported to the designated safeguarding lead for referral to be considered to children's social care.

Child abduction

Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers. Further information is available at: www.actionagainstabduction.org.

When we consider who is abducted and who abducts:

- Nearly three-quarters of children abducted abroad by a parent are aged between 0 and 6 years-old
- Roughly equal numbers are boys and girls
- Two-thirds of children are from minority ethnic groups.
- 70% of abductors are mothers. The vast majority have primary care or joint primary care for the child abducted.
- Many abductions occur during school holidays when a child is not returned following a visit to the parent's home country (so-called 'wrongful retentions')

If we become aware of an abduction, we will follow the HIPS procedure and contact the police and children's social care (if they are not already aware).

If we are made aware of a potential risk of abduction, we will seek advice and support from police and children's social care to confirm that they are aware and seek clarity on what actions we are able to take.

Pupils Missing Out on Education (PMOOE)

Most children engage positively with school and attend regularly. However, to flourish, some children require an alternative education provision or may require a modified timetable to support a return to full time education provision. It is recognised that children accessing alternative provision, or a reduced/modified timetable may have additional vulnerabilities. Ofsted refer to these as PMOOE because they are not accessing their education in a school in the 'usual way'.

The school will gain consent (if required in statute) from parents to put in place alternative provision and/or a reduced or modified timetable.

The school will ensure that and parents (and the Local Authority where the child has an Education Health Care Plan (EHCP)) are given clear information about alternative provision placements and reduced/modified timetables: why, when, where, and how they will be reviewed.

The school will keep the placement and timetable under review and involve parents in the review. Reviews will be frequent enough to provide assurance that the off-site education and/or modified timetable is achieving its objectives and that the child is benefitting from it.

The school will monitor and track children attending alternative provision to ensure that the provision meets the needs of the child. The school continues to be responsible for the safeguarding of that pupil. The school will obtain written confirmation from the alternative provision provider that appropriate safeguarding checks have been carried out on individuals working at the establishment,

The school will comply with regular data returns requested by the Local Authority, regarding all children, of statutory school age, attending alternative provision and/or on a reduced/modified timetable.

The school leadership will report to the local governors information regarding the use and effectiveness of alternative provision and modified/reduced timetables. The school will also report to Governors any formal direction of a child to alternative provision to improve behaviour.

Children's Mental Health

Form tutors and class teachers see their pupils day in, day out. They know them well and are well placed to spot changes in behaviour that might indicate an emerging problem with the mental health and emotional wellbeing of pupils. All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

The balance between the risk and protective factors is most likely to be disrupted when difficult events happen in pupils' lives. These include:

- **Loss or separation** – resulting from death, parental separation, divorce, hospitalisation, loss of friendships (especially in adolescence), family conflict or breakdown that results in the child having to live elsewhere, being taken into care or adopted
- **Life changes** – such as the birth of a sibling, moving house or changing schools or during transition from primary to secondary school, or secondary school to sixth form
- **Traumatic events** such as abuse, domestic violence, bullying, violence, accidents, injuries or natural disaster.

When concerns are identified, school staff will provide opportunities for the child to talk or receive support within the school environment. Parents will be informed of the concerns and a shared way to support the child will be discussed.

Where the needs require additional professional support, referrals will be made to the appropriate team or service with the appropriate agreement.

If staff have a mental health concern about a child that is also a safeguarding concern, they will take immediate action, raising the issue with the designated safeguarding lead or a deputy.

School Attendance and Behaviour

Additional policies and procedures are in place regarding school attendance and behavior and are detailed in the following documents

Attendance Policy

Behaviour Policy

Children With Health Needs Who Cannot Attend School Policy

The school recognises that children being absent, particularly repeatedly and/or for prolonged periods and exclusion from may be indicators of abuse and neglect, including the exploitation of children. The DSL will regularly liaise with members of staff with responsibility for behaviour and attendance to ensure risk is identified and appropriate intervention is in place to protect children from harm.

The school will work in partnership with the Police and other partners for reporting children that go missing from the school site during the school day. Staff will be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

Restrictive Physical Intervention

This section should be read in conjunction with the school's Physical Intervention Policy.

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is at immediate risk of harming themselves or others, and that at all times it must be the minimal force necessary to prevent injury to another person. Such events should be fully recorded and signed by a witness.

Staff who are likely to need to use physical intervention will be appropriately trained in Crisis Prevention Institute (CPI) techniques.

Staff understand that physical intervention of a nature which causes injury or distress to a child may be considered under child protection and/or disciplinary procedures.

We recognise that sometimes touch is appropriate in the context of working with children, and all staff have been given safe practice guidance to ensure they are clear about their professional boundaries.

When applying disciplinary measures such as physical intervention or isolation for children with SEND the school will consider the risks, given the additional vulnerabilities of these children.

Whistleblowing

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.

All staff, including temporary staff/supply staff and volunteers, should be aware of their duty to raise concerns, where they exist, about the management of safeguarding and child protection, which may include the attitude or actions of colleagues, poor or unsafe practice and potential failures in the school's safeguarding arrangements.

If it becomes necessary to consult outside the school, they should speak in the first instance, to the Area Schools Officer or LADO in accordance with the Whistleblowing Policy.

Staff are encouraged to use an external, independent and confidential service provided by Navex Global, who can be contacted on their freephone helpline number 0800 069 8180 and through the [Navex Global web pages](#)

[The NSPCC whistleblowing helpline](#) is also available for staff who do not feel able to raise concerns regarding child protection failures internally or have concerns about a way a concern is being handled by their school. Staff can call: 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and Email: help@nspcc.org.uk.

Whistleblowing regarding the Headteacher should be made to the Chair of the Governing Body whose contact details should be available to staff.
